

HEALTH CARE CRISIS

- THE PROBLEM
 - Healthcare focuses on symptoms not root cause
 - Healthcare costs have ballooned to \$3.8 Trillion annually and are projected to increase another 600% by the year 2050
 - We are not having an impact, we are not even in the game
 - Healthcare is the only industry where we can invest billions to get new innovations and yet not improve lives or lower healthcare costs
- THE VAVICI SOLUTION
 - Restores the focus of healthcare from chronic care to curative care,
 - Eliminating diseases that represent over 80% of healthcare costs
 - Saving millions of lives and Trillions of dollars

HOW DID WE GET HERE?

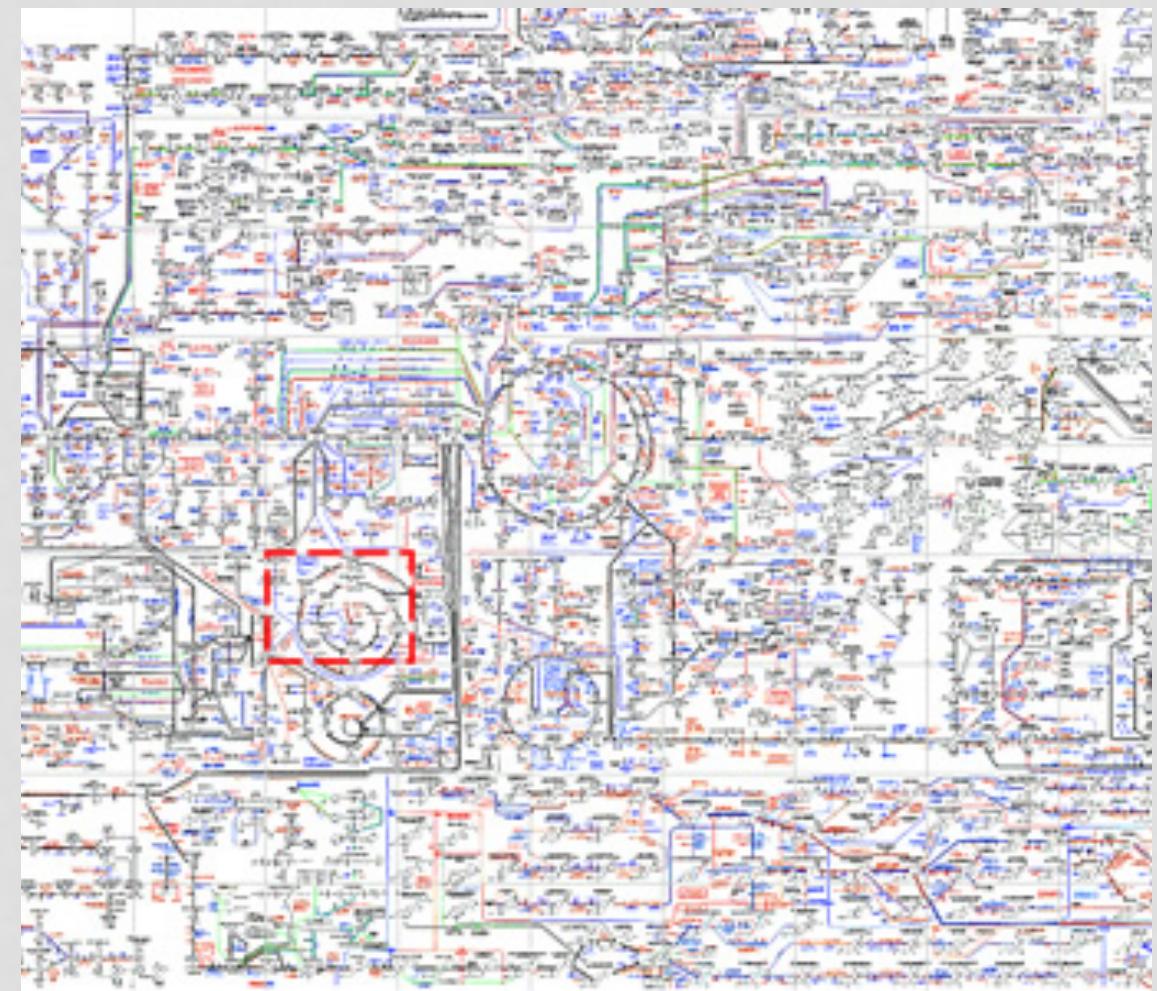

- The Flexner Report in 1910
- Evidence Based Medicine
- Extinguished all other med
- Reductionist approach

HOW DID WE GET HERE?

- The Flexner Report in 1910
- Evidence Based Medicine
- Extinguished all other med
- Reductionist approach

HOW DID WE GET HERE?

The government, investors, and the industry will not be fighting for change

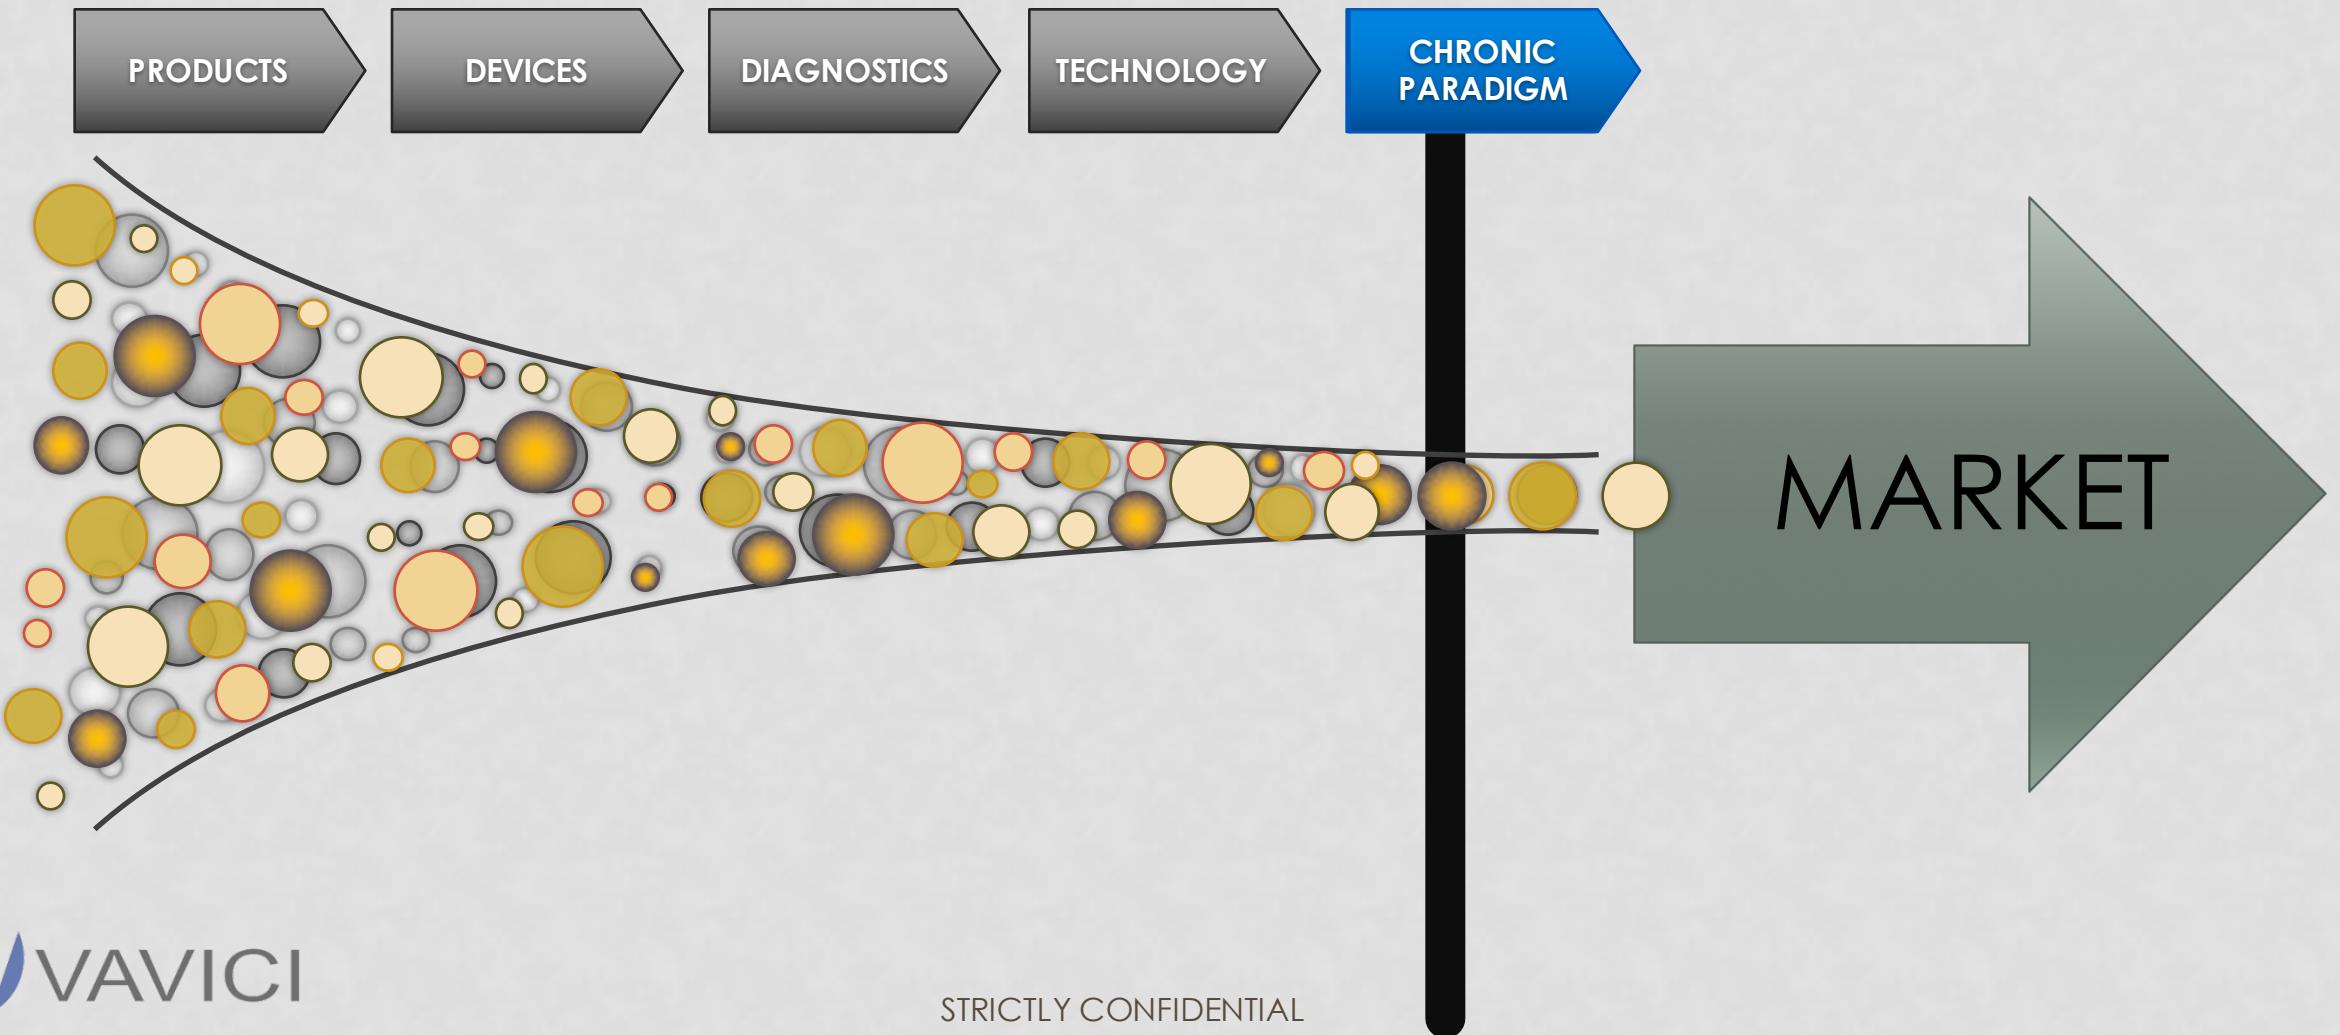

WE HAVE CREATED A MONSTER

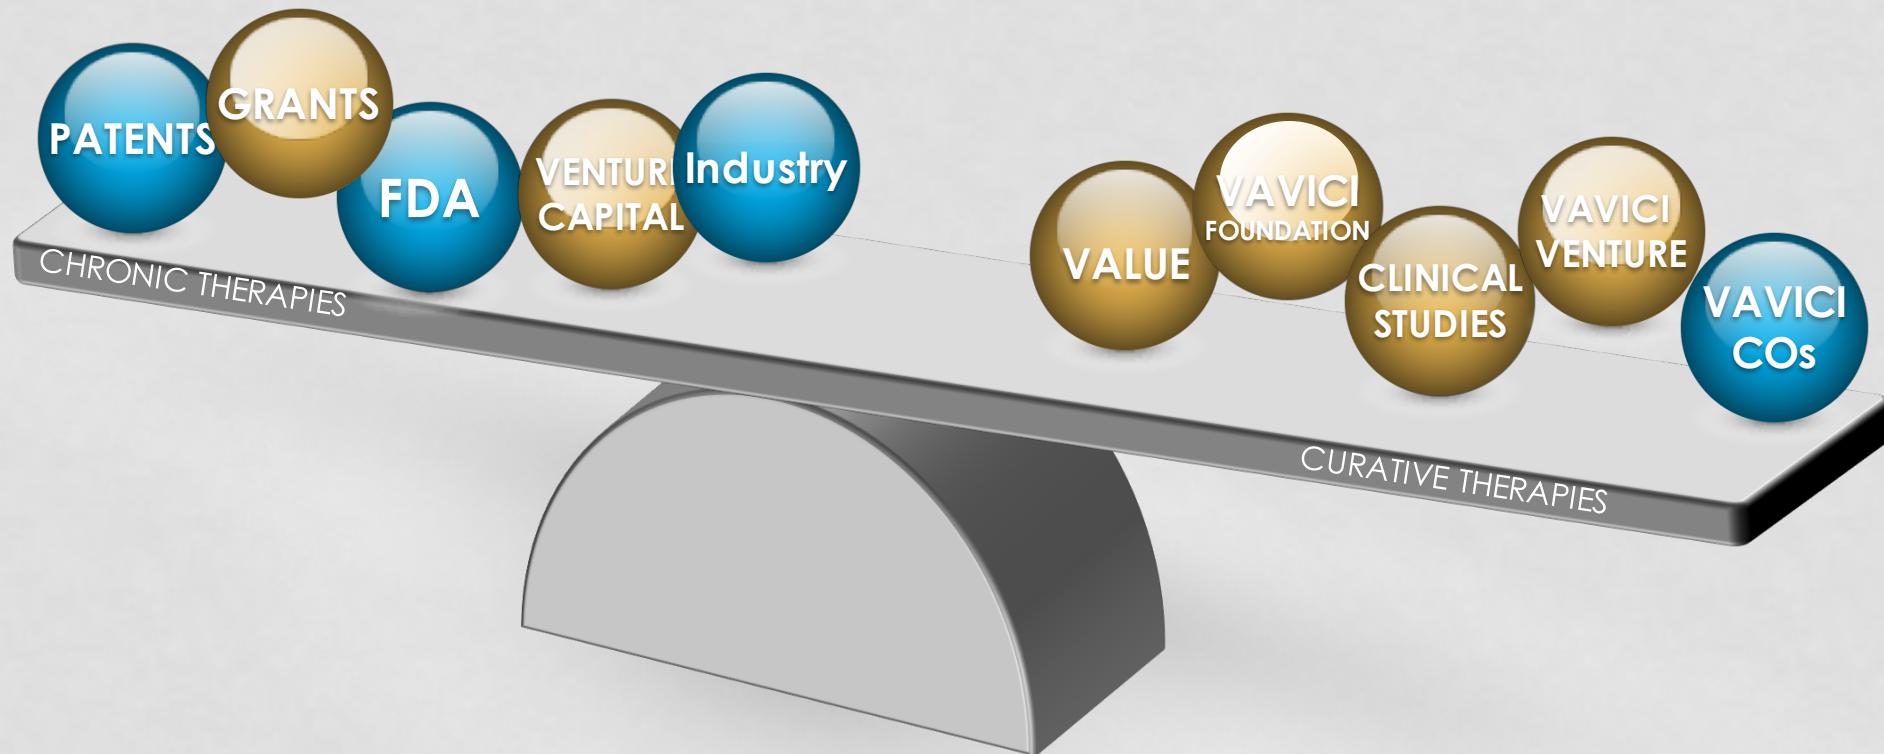

THIS CHRONIC CARE PARADIGM IS UNNATURAL AND UNSTABLE

Just as nature abhors a vacuum perfect markets abhor chronic solutions

VAVICI REBALANCES OUR FOCUS

WE CAN FIX THIS YOU CAN HELP

- While the government, investors and industry may not want to change health care, we all do
- In a world where those who oppose change can outspend us a hundred to one we can and must come together
